## TIN HOUSE: WEIRD SCIENCE

Tin House Magazine, United States, 2012. Paperback. Book Condition: New. 226 x 176 mm. Language: English . Brand New Book. Improbable, far-fetched, real? Today s science headlines read like futuristic tales. From nanobots and neutrinos to architeuthis, the real is often stranger than the most speculative sci fi. In that vein, the latest edition of Tin House features fiction, poetry, and nonfiction that go beyond the headlines into current, past, and future scientific explanations of reality. There may even be speculative fiction, if there are humans involved. Tin House is a beautifully designed periodical that features the best writers of our time alongside a new generation of talent. Content includes unique departments such as Lost and Found, in which writers review overlooked or underrated books, and Blithe Spirits and Readable Feast, which present tales and literary recipes for drinks and food.
