*Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Approaching Maternity I have endeavored in this work, to avoid the use of any technical terms that would only confuse my readers, and it has been my effort to couch my ideas in language that could readily be understood by any woman of ordinary intelligence. The indications of pregnancy are as follows: 1. Cessation of the menses. 2. Enlargement of the breasts. 3. Morning nausea. 4. Sinking and then protruding of navel. 5. Quickening; or moving of child in the womb. It is a difficult matter to calculate accurately, the exact day on which a pregnant woman will be confined. It is usual to figure that two hundred and eighty days from the cessation of the last menstruation, the event will take place, but many a husband who has been hurriedly called and sent for the physician and nurse, two or three weeks before the birth was due, will testify to the inaccuracy of this uncertain rule.
